Topics in Design

WORK EXPERIENCE

Scout Studio | Designer
Boston, MA, January - April 2019

- Conducted UX research and design for IDEA – Northeastern's student-led venture accelerator
- Led user experience interviews, attended IDEA events, and held weekly client meetings to discuss deliverables and set goals
- Designed deliverables to make IDEA venture journeys as accessible and smooth as possible
- Deliverables included a series of information booklets for each of IDEA's three stages, as well as sets of how-to guides for business development

Critical Creative Practice Symposium | Lead Developer
Boston, MA, February - March 2019

- Conceptualized and implemented an event website for a symposium presented by Research Fellows at Northeastern's College of Arts, Media, and Design
- Developed the website using Bootstrap, adapting it to meet changes in event planning

Ashmun Group LLC | Website Designer
Seattle, WA, July - December 2017

- Designed and created website in Squarespace for a product development consultancy
- Maintained close communication with the client regarding the creation of personal branding

Butler University Health & Recreation | Fitness Instructor
Indianapolis, IN, October 2017 - May 2018

- Teaching group fitness classes 2-4 times per week to faculty, staff, and students at Butler University's fitness center

RELEVANT PROJECTS

Recipe Search
May 2019 - Present

- Created an application that outputs a list of recipes containing user-specified ingredients
- Scraped recipe data from various websites and formatted recipe ingredients and information as JSON
- Will incorporate a user interface and MongoDB to house recipe and ingredient information

Animation Engine
June 2019

- Developed an animation engine in Java with a team of three people, employing a Model-View-Controller design pattern
- Programmed engine to parse through animation instructions from a text file, and output animations as SVG files or display them in a Java Swing animation GUI
- allows users to edit shape type, color, position, speed, and size variables of keyframes
